Here and There.

"To him who in the love of Nature holds communion with her visible forms," the present pleasant weather, and attractive woods and waters in our vicinity, afford excellent opportunity for recreation and enjoyment. The brilliant sunshine and the delightful sea breeze make the days as pleasant as it is possible for weather to be. Unoppressed by sultriness, those on pleasure bent can always find suitable hours for enjoyment, while even those who belong to the "can't-get-away club," are more pleasantly situated than ninety-nine hundredths of the eastern summer resort population. Men who have been here for a generation tell us that there seems to be a sort of cycle in the matter of rainfall: that fifteen or twenty years ago the seasons were like the present one; that cloudless skies and uninterrupted sunshine were the rule, and showers the exception. This summer has certainly been an unusually dry one. But two or three showers have fallen since the 1st of May, and, though occasionally there has been a foggy morning, yet the instances have been very few since that date that there has not been sunshine during the day. It is a matter of regret to many here that we are not better fixed in the way of drives, of roads where the pleasant and exhilarating horseback exercise could be safely taken. This eternal water gets a little monotonous, and memories of green and shady lanes come up. Lanes and leafy roads where pine and oak and maple line the way, where the morning sun with level ray shines through the boughs and leafy spray that, wet with dew, just grazes the form of the rider. Few things in the way of exercise are more enjoyable to a healthy man or woman than a morning gallop on horseback with turf beneath the feet, and the glorious sunshine pouring over the earth; when the birds, God's choristers, flit like animated gems from branch to branch and sing their matins to Him who made all we see and enjoy; when earth and air and sky are fair, and all the little vexations and worries that a man one's daily peace are for a time forgotten in the rhythmic beat of the horse's hoofs and the feeling that comes over one when swiftly borne upon the back of the noble animal, he inhales the fragrant air and feels a conscious thrill of joyous existence as he rides along.

Good roads are one of the existing necessities of the county. With the exception of a ride over the roadway to upper town and a newly made highway to the Walhuck, we have no thoroughfare, and though, on the water the sail of a boat may be "as a white wing that wafts one from distraction," yet, a buggy ride or a canter on horseback is something that would be a satisfaction to many. 'Tis to be regretted that the many charming points of scenery in our immediate neighborhood should be practically inaccessible to vehicles or riders.

A WASHINGTON dispatch of the 18th says: News of the assassination of the king and queen of Corea excited more attention here than it would otherwise have done on account of the recent treaty made by Commodore Saffold. The treaty has not yet been ratified and the tragic event may perhaps undo the commodore's work. It is more probable, however, that the murder will help the cause of progress rather than interfere with it. Neither the Japanese nor Chinese ambassadors here have been officially notified of the insurrection, but they expect to hear some facts soon bearing on the matter.

Under date of the 18th it is telegraphed from Berlin that the delay of the ports in accepting the proposal for a military convention has considerably irritated Germany. Herr Von Hirschfeld, representative at Constantinople, has been instructed to make representations to the ports concerning the feelings of Germany on this subject. The Cross Gazette says: "The Porte cannot undertake military intervention in Egypt under the same conditions as it could have intervened in July. It has only itself to blame for the permanently disadvantageous position in which Turkey is now placed. England asks no more in conducting military operations in Egypt than she did at the time of the Crimean war, when Turkey agreed to her demands without prejudice to the sultan's authority."

TUTT'S PILLS!

AS AN ANTI-BILIOUS MEDICINE, they are incomparable. They stimulate the TORPID LIVER, invigorate the NERVOUS SYSTEM, give tone to the DIGESTIVE ORGANS, create perfect digestion and regular movement of the bowels.

AS AN ANTI-MALARIAL they have no equal; acting as a preventive and cure for Bilious, Remittent, Intermittent, Typhoid Fevers, and Fever and Ague. Upon the healthy action of the stomach and liver depends, almost wholly, the health of the human race.

DYSPEPSIA. It is for the cure of this disease and its attendant, SICK-HEADACHE, NERVOUSNESS, DEBILITY, CONSTIPATION, PILES, &c., that these Pills have gained such a wide reputation. No remedy was ever discovered that acts so speedily and gently on the digestive organs, giving them tone and vigor to assimilate food. This accomplished, the NERVES are BRACED, the BRAIN NOURISHED, and the BODY ROBUST. Try this Remedy fairly and you will gain a Vigorous Body, Pure Blood, Strong Nerves, and a Cheerful Mind.
